The Chairman assigned Mr. Komsak Wattanasriroj, Chief Financial Officer to report the Company's 2015 operation result to all shareholders, with details summarized as follows:

In 2015, the total assets of Mono Technology PCL. and subsidiaries was 5,278 million Baht. Current assets totaled 837 million Baht. In 2015, the total shareholders' equity was 2,424 million Baht. Comparing to the year 2014 which the shareholders' equity was 2,912 million Baht, the number decreased by 488 million Baht. This was due to the annual loss of 478 million Baht, dividend payment of 62 million Baht whereas the increase of capital was 52 million Baht.

The total revenues of the year 2015 was 1,925 million Baht. Comparing to the total revenues of the year 2014 which was 1,603 million Baht, the number increased by 322 million Baht. The increase in revenue could be

divided into 87 percent from media and content, 11 percent from entertainment and 2 percent from other businesses. The proportions of revenue did not show much difference comparing to the year 2014.

In 2015, the net loss was 486 million Baht. Comparing to the year 2014 which the net loss was 12 million Baht, the number increased by 474 million Baht.

During the year 2014 and 2015, the Company recorded extra lists of expense including the amortization of non-profitable assets and others amounted to 91 million Baht and expense from the change in the cost of TV digital license according to the new regulation of the Federation of Accounting Profession on the cost price which amounted to 69 million Baht in 2015 and 51 million Baht in 2014.

As a result, the net loss of 2015 after calculating the extra lists recorded was 326 million Baht and the net profit of 2014 was 39 million Baht. Therefore, the net loss increased to 365 million Baht.

Considering each quarter of the year 2015, the loss of the Company had been decreasing continuously. The net loss of the fourth quarter was 59 million Baht, decreased by 37 million Baht from the third quarter after calculating the extra lists recorded.

The important movements in 2015 included:

In January, Mono Technology Public Company Limited transferred its securities “MONO” and “MONO-W1” from mai to trade in The Stock Exchange of Thailand (SET). In July, Mono Film Company Limited purchased the copyrights of foreign films from Sahamongkol International Company Limited to broadcast on MONO29 channel and provide online video on demand service via www.monomaxxx.com. In October, Mono Technology PCL. was rated in Excellent Level or Five Stars from the evaluation of Corporate Governance of Thai Listed Companies by The Stock Exchange of Thailand (SET).

Mr. Pete Bodharamik, Chairman, stated that the Company currently focused on digital television business. Therefore, Mr. Navamin Prasopnet, President of Mono Broadcast Company Limited, was asked to give a report on the business to shareholders.

Mr. Navamin Prasopnet stated that the operation result and future growth of MONO29 digital television channel shall be explained as followed.

As the growth of income from digital television business mainly came from rating, MONO29 was able to increase its rating every quarter. Currently, the rating of the channel was .56 which ranked the forth of the country risen from the fifth as of the previous year. Rating of MONO29 tended to rise continuously whereas rating of some channels in top rank seemed to be stable and fall. The reason for the increase in rating of MONO29 channel was that the Company initially set its position as Free TV with the most number of Great Movies and Popular TV Series. The Company still focused on this strategy by cooperating with big film studios, for example, Paramount, Universal, Warner Bros. Picture. By signing output deal contracts, the Company would have the copyrights of new movies and be the first and the only channel to broadcast them. In the future, the Company would also have

a large number of blockbusters to be aired. Moreover, the Company had arranged its program schedule so that the prime time for advertising on Mono29 channel would be at 18.20–22.30 hrs. on weekdays and 9.00–22.30 hrs. on weekends. Movies and series were the main contents of Mono29 according to the strategy. Contents could be classified into 44 percent for movies, 23 percent for series, 25 percent for news and 8 percent for other programs.

According to marketing principle of television industry, income from advertising shall rise once rating increased. As for Mono29 channel, income from advertising per minute had increased continuously. Currently, the average selling price was 20,000 Baht per minute. The selling of advertising was 180 minutes per day, or 18 hours (10 minutes per hour), from 06.00–24.00 hrs. The selling of advertising could not be counted based on 24 hours because advertising agencies considered the selling base on 18 hours per day only. Currently, the utilization rate of the Mono29 channel was 100 percent and this rate tended to stay at the same level for the rest of the year.

As for the future growth of the selling of advertising on Mono29 channel in 2016, the Company had set its goal at 202 million Baht for the first quarter, 340 million Baht for the second quarter, 470 million Baht for the third quarter and 488 million Baht for the fourth quarter. These figures derived from the increase in rating which the Company expected to rise continuously. Therefore, the overview of television business as of this year and the following years appeared that it shall become the main business which certainly increased the overall income of Mono Group.

Mr. Pete Bodharamik also added that the future income of Mono Group and the good business tendency of the year 2016 mainly came from television business. The Company predicted that the income from television business would increase from the previous year as it had risen from 624 million Baht in 2015 to 1,500 million Baht in 2016. This was regarded as a good tendency. The Chief Financial Officer also reported that the loss of the Company had decreased every quarter. Therefore, the loss of the Company shall continue to decrease in the following quarters of the year.

The Chairman allowed the shareholders to show their opinion and raise questions concerning this agenda.

When no recommendations and questions related to this agenda were made, the Chairman informed the meeting that the Agenda 2 was for acknowledgement. Thus, no voting was required.

The meeting acknowledged the Company's operation result for 2015 as reported.

Agenda 3 To consider approving the Company's financial statements and auditor's report ended December 31, 2015

The Chairman proposed the meeting to consider the Company's financial statements and auditor's report for the year ended December 31, 2015 that was audited by the auditor, reviewed by the Audit Committee and approved by the Board of Directors as shown in the financial statements and the auditor's report for the year ended December 31, 2015 (Enclosure 2 and Enclosure 3 of the 2016 AGM notice)

The Chairman allowed the shareholders to show their opinion and raise questions concerning this agenda.

Mr. Pitipat Pattananchok, a minor shareholder from Thai Investor Association, asked the Board of Directors to clarify the reason that financial statement was profitable whereas consolidated financial statement suffered a loss. It was understood that the parent company did not run its main business but invested in subsidiaries which should result in the growth of consolidated financial statement. The balance sheet also showed that the assets of consolidated financial statement were 5,277.74 million Baht whereas the assets of separate financial statement were 3,849.86 million Baht.

Mr. Komsak Wattanasriroj, Chief Financial Officer, replied that the strength and profitable business of Mono Technology Public Company Limited, the parent company, was mobile internet business. Nevertheless, subsidiaries including digital television business and other businesses still suffered a loss which appeared in the loss of consolidated financial statement. The balance sheet or assets, however, was amounted to 3,849.86 million Baht because the parent company had invested in or given loans to its subsidiaries.

When no more recommendations and questions related to this agenda were made, the Chairman proposed the shareholders' meeting to vote.

Resolution of the Meeting:

The shareholders' meeting resolved to approve the Company's financial statements and the auditor's report ended December 31, 2015. The resolution was passed by the unanimous vote of the shareholders attending the meeting and voting. The meeting resolution was as follows:

Resolution	Number of Votes (1 Share = 1 Vote)	% of total shares of the shareholders attending the meeting and voting
1. Agree	2,580,439,166	100.0000
2. Disagree	0	0.0000
3. Abstain	0	-
4. Invalid Ballots	0	-
Total 205 Shareholders	2,580,439,166	-

Agenda 4 To consider approving the allocation of net profit as legal reserve and the dividend payment for the year 2015

The Company Secretary informed the meeting that according to Article 45 of Articles of Association of the Company, "the Company shall appropriate not less than five (5) percent of its annual net profits after the deduction of accumulated loss brought forward (if any) as a reserve fund until such reserve fund reaches not less than ten (10) percent of its registered capital." Also, the Board of Directors also had the policy to propose the shareholders' meeting to consider paying dividend from the Company's financial statements to general

shareholders at the ratio of not less than 50 percent of the net profit after income tax deduction each year. The Board of Directors shall consider the dividend payment based mainly on the benefit of shareholders and take into account reserves of funds for future investment or loan repayment or working capital.

The Board of Directors had considered this matter and deemed it appropriate to propose the shareholders' meeting to approve the allocation of net profit as legal reserve and the omission of dividend payment from the 2015 operation results as spare cash for continuous investment according to the Company's business plan as detailed below:

1. The Company's net profit as of 2015 was accounted for 139,643,862.78 Baht. The Company has appropriated an amount of 5 percent of yearly net profit or 6,982,193.14 Baht for legal reserve.

Nevertheless, in order that such reserve fund reaches the amount of not less than ten percent (10) of the registered capital, the Company has allocated the net profit as legal reserve which is accounted for 7,688,182.48 Baht. As a result, legal reserve of the Company currently amounted to 49,279,999.75 Baht which is ten percent (10) of the registered capital.

2. The Company has considered the omission of dividend payment as of 2015 although the Company policy specified that dividend payment shall not be less than 50 percent. This is due to the fact that the Company has to reserve cash for continuous investment according to its business plan and for funding working capital.

Detailed comparison between the omission of dividend payment in the 2015 and 2014 was presented in page 3 of the 2016 AGM notice that was sent to all shareholders.

The Chairman allowed the shareholders to show their opinion and raise questions concerning this agenda.

Ms. Kaewkwan Lertrachtakorn, a minor shareholder, would like to know whether legal reserve of the Company would reach 15 percent when the allocation of profit for legal reserve was 5 percent and 10 percent respectively. Also, an enquiry was made on the reason for the omission of dividend payment when the Company gained a profit of 139 million Baht.

Mr. Pete Bodharamik, Chairman, replied that the total operation result of the Company still suffered a loss, especially the digital television business. As a result, the Company needed to reserve money to pay for license and other expenses. That was the reason for the omission of dividend payment on the previous year. Currently, the operation result of was quite better. Dividend payment would surely be considered when the Company was able to gain profit.

Mrs. Punnee Worawuthichongsathit, Chairperson of Audit Committee, added that the Public Company Limited Act appointed that any company gained profit must reserve 5 percent of the annual profit for legal reserve. The Company had reserved the money every year and this year its legal reserve had finally reached 10 percent of the registered capital. The Company needed no more legal reserve unless it increased the registered capital.

When no more recommendations and questions related to this agenda were made, the Chairman proposed the shareholders' meeting to vote.

Resolution of the meeting:

The shareholders' meeting approved the allocation of net profit as legal reserve and the dividend payment for the year 2015 as reported in details above by the Company Secretary. The resolution was passed by the majority vote of the shareholders attending the meeting and voting. The meeting resolution was as follows:

2. Disagree	500	0.0000
3. Abstain	0	-

Total 206 Shareholders	2,580,461,366	-

The auditors whose names proposed above have neither the relationship nor any interest with the Company/subsidiaries/executives/major shareholders or related persons of these persons. Besides, they belong to the same company with the auditors of the Company's subsidiaries.

Moreover, the Board of Directors deemed it appropriate to propose the shareholders' meeting to approve fixing the annual audit fee for the year 2016 at the amount of not exceeding 1,200,000 Baht. The audit fee is

3. Mr. Kriengsak Thiennukul

The Board of Directors has considered and agreed with the Nomination and Remuneration Committee's opinion to propose the shareholders' meeting to approve the re-election of the 3 directors to directorship for another term as in view of the Board, these directors possess the qualifications, knowledge, ability and experiences which are useful for the Company's operation.

The value calculated is 98,200,000 Baht. The copyrights of 29 screenplays which valuated by market approach is 4,800,000 Baht. The total value of the copyrights is accounted for 103,000,000 Baht. This budget is to support the growth of digital TV channel – MONO29, satellite TV channel – Mono Plus and member registering online video on demand – Monomaxxx.com. The Board of Directors has considered this matter and deemed it appropriate to propose the shareholders' meeting to approve the allotment of newly issued shares.

The Chairman allowed the shareholders to show their opinion and raise questions concerning this agenda.

Mr. Suwit Chaiamnat, a minor shareholder, made inquiries whether Mr. Visute Poolvorakaks would be the director for the purchased screenplays and whether the Company would achieve its target revenue of 3,000 million Baht after the first period. Also, as there was an intensive competition in digital television business this year, the shareholder wanted to know the strategy of the Company to reach the third in the industry.

Mr. Sang Do Lee, Chief Executive Officer, answered that Mr. Visute Poolvorakaks was the Executive Producer of the purchased screenplays. The Company was glad that he joined Mono Group as he had worked in film business for more than ten years and was regarded as an expert who could support the Company's movie business. As for

the target revenue of 3,000 million Baht, the Company believed it could be possible. The Company had two main businesses including mobile internet business which showed a small growth, and television business which was targeted to reach the revenue of 1,500 million Baht this year. Considering the first quarter of 2016, especially in March, it could be possible to reach the target income.

Mr. Pete Bodharamik, Chairman, added that the Company assigned Mr. Visute Poolvorlaks to be responsible for Mono Group film production business under the name T-Moment Company Limited as he was one of the potential executives in film industry of Thailand.

Mr. Navamin Prasopnet, Assistant Chairman, added to this question as the President of Mono Broadcast Company Limited, that the Company had worked hard to reach the third in rating. The Company had an output deal with Major Studio so that this year and the following years the Company would obtain new contents which would be the blockbusters of the channel. That could be a way to pull the rating.

Ms. Tipawan Trakanvijit, a minor shareholder, asked about the role of Mr. Visute Poolvorlaks in the Company and the utilities from the purchased copyrights of films and screenplays.

Mr. Pete Bodharamik, Chairman, answered that Mr. Visute Poolvorlaks would take responsibility in the management of T-Moment Company. The purchased films would be broadcasted on MONO29 channel which could gain a good rating. As for the production of future films, Mr. Visute Poolvorlaks would be the producer and this was regarded as one of the strengths of the Company.

Mr. Kitichet Chaeunchum, a minor shareholder, made enquiries on the current advertising rate and utilization rate.

Mr. Pete Bodharamik, Chairman, replied that the average advertising rate was over 20,000 Baht and rose to 26,000 to 27,000,000 Baht at prime time (18.00-22.30 hrs.). Utilization rate was 100 percent calculated from 18 hours (06.00-24.00 hrs.) in March and April. This rate was likely to be stable for the two following months. The Company also planned to push forward the price. Moreover, the Company was confident in its potential to compete against other free television business players as the channel had a number of new movies and blockbusters which could gain rating.

Ms. Suwannee Chiensirikraiwit, a minor shareholder, would like to know the rating where the Company would meet its break even and the costs management comparing to the income.

Mr. Pete Bodharamik, Chairman, replied that the Company had almost reached its break even. An estimated cost of contents was 500 to 1,000 million Baht per year. Rating was over 0.5. The Company believed that it could achieve the target market share of 5 percent, or an estimated value of 2,500 to 3,000 million Baht, from the total advertising market at the size of 50,000 to 60,000 million Baht. Cooperation with advertising agencies and continuing strategic planning on program schedule resulted in a satisfying income.
