Mono Next Public Company Limited (formerly known as "Mono Technology Public Company Limited") and its subsidiaries Report and consolidated financial statements 31 December 2020

#### **Independent Auditor's Report**

To the Shareholders of Mono Next Public Company Limited (formerly known as "Mono Technology Public Company Limited")

#### **Opinion**

I have audited the accompanying consolidated financial statements of Mono Next Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2020, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Mono Next Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mono Next Public Company Limited and its subsidiaries and of Mono Next Public Company Limited as at 31 December 2020, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

#### **Basis for Opinion**

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### **Emphasis of Matters**

I draw attention to Note 1.2 to the consolidated financial statements. The COVID-19 pandemic is resulting in an economic slowdown and impacting the Group's business activities. The Group's management has monitored the ongoing developments and amended its business plan to reflect the current circumstances. Moreover, the management has continuously assessed the impact, and adjusted the values of assets in the consolidated financial statements and investments in subsidiaries in the separate financial statements, in so far as they are relevant to the amendments to the business plan, as discussed in Note 10.7 to the consolidated financial statements.

In preparing the consolidated and separate financial statements for the year ended 31 December 2020, the Group has elected to apply the Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic issued by the Federation of Accounting Professions, as discussed in Note 3 to the consolidated financial statements. My opinion is not modified in respect of these matters.

#### **Key Audit Matters**

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters.

Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

#### Revenue recognition

The Group is principally engaged in both media and content businesses. As a result, the Group has a variety of revenues from sales of goods and rendering of services. The amount of the Group's revenue is significantly and directly affected its operating performance, to which users of financial statements pay attention. I have therefore focused on the Group's revenue recognition.

I have examined the revenue recognition of the Group by

- Assessing and testing the Group's internal controls with respect to the revenue cycle
  by making enquiry of responsible executives, gaining an understanding of the controls
  and selecting representative samples to test the operation of the designed controls,
  and expanding the scope of the testing of the internal controls with respect to revenue
  recognition
- On a sampling basis, examining supporting documents for actual sales and service transactions occurring during the year and near the end of the reporting period
- Reviewing credit notes that the Group issued after the period-end
- Performing analytical procedures on disaggregated data to detect possible irregularities in sales and service transactions throughout the period, particularly for accounting entries made through journal vouchers

#### Impairment of assets

As at 31 December 2020, intangible assets and cost of spectrum license totaled Baht 2,570 million, representing 58 percent of the Group's total assets in the consolidated statement of financial position, as described in Notes 12 and 13 to the consolidated financial statements. Moreover, the Company had investments in subsidiaries and loans to and interest receivable from subsidiaries amounting to Baht 4,148 million, representing 96 percent of total assets in the separate statement of financial position, as described in Notes 7 and 10 to the consolidated financial statements. Management's assessment was that there were indicators that these assets may be impaired. In determining the impairment loss, management had to exercise judgement with respect to the projections of future operating performance and plans for management of assets, and the determination of an appropriate discount rate and key assumptions, which directly affect the amount of allowance for impairment loss on such assets.

I gained an understanding of and assessed the assumptions applied in preparing plans and cash flow projections, based on

- Gaining an understanding of the process by which the figures were arrived at
- Comparing the assumptions with external and internal sources of information
- Comparing past cash flow projections with actual operating results in order to assess the exercise of management judgement in estimating cash flow projections
- Evaluating the discount rate applied by management through analysis of the moving average finance costs of the Group and of the industry
- Testing the calculation of the realisable values of the assets using the selected financial model
- Considering the impact of changes in key assumptions on realisable values, especially changes in the discount rate and long-term revenue growth rates
- Reviewing the disclosures made with respect to the impairment assessment for assets

#### Deferred tax assets for unused tax losses

As at 31 December 2020, the Group had deferred tax assets for unused tax losses amounting to Baht 198 million. The Group has disclosed its accounting policy and details relating to deferred tax in Notes 5 and 26, respectively, to the consolidated financial statements. A deferred tax asset is recognised when it is highly probable that the Group's taxable profit will be sufficient to allow utilisation of the deferred tax in the future. Determining whether there will be sufficient future taxable profit to utilise taxable losses requires significant management judgement with respect to preparation of business plans and projections of future taxable profit based on approved business plans. Therefore, there is a risk with respect to the amount of deferred tax assets.

I assessed the estimates of future taxable profit by checking the required information and key economic assumptions used in the projections against information from both external and internal sources, with particular consideration given to information and assumptions that directly affect revenue growth and gross profit margin. Furthermore, I compared past profit projections with actual taxable profits to assess the exercise of management judgement in estimating taxable profits. I also tested the calculation of future taxable profit based on the above information and assumptions, and considered the effects of changes to key assumptions on the projected future taxable profits, especially in respect of long-term revenue growth. In addition, I reviewed the disclosures of information regarding temporary differences and unused tax losses for which deferred tax assets were not recognised by the Group.

#### Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements,
  whether due to fraud or error, design and perform audit procedures responsive to those risks,
  and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion.
  The risk of not detecting a material misstatement resulting from fraud is higher than for one
  resulting from error, as fraud may involve collusion, forgery, intentional omissions,
  misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements,

including the disclosures, and whether the financial statements represent

the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information

of the entities or business activities within the Group to express an opinion

on the consolidated financial statements. I am responsible for the direction, supervision

and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned

scope and timing of the audit and significant audit findings, including any significant deficiencies

in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied

with relevant ethical requirements regarding independence, and to communicate with them

all relationships and other matters that may reasonably be thought to bear on my independence,

and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters

that were of most significance in the audit of the financial statements of the current period

and are therefore the key audit matters. I describe these matters in my auditor's report unless law

or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

I determine that a matter should not be communicated in my report because the adverse

consequences of doing so would reasonably be expected to outweigh the public interest benefits

of such communication.

I am responsible for the audit resulting in this independent auditor's report.

**Mono Next Public Company Limited** 

(formerly known as "Mono Technology Public Company Limited") and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2020

#### 1. General information

#### 1.1 Corporate information

Mono Next Public Company Limited (the "Company") is a public company incorporated and domiciled in Thailand. On 20 August 2020, the Company registered a change of its company name with the Ministry of Commerce in accordance with a resolution passed by the Annual General Meeting of its shareholders on 10 August 2020, from "Mono Technology Public Company Limited" to "Mono Next Public Company Limited".

On 29 June 2020, the Company registered a change of its registered office with the Ministry of Commerce to 29/9 Moo 4 Chaiyapruk Road, Tambon Bang Phlap, Pakkred District, Nonthaburi.

The Group is principally engaged in the following businesses:

- a) Media business, consisting of TV, online and subscribed streaming video
- b) Content and entertainment business, consisting of movie business, entertainment business, commerce and content arrangement business

#### 1.2 COVID-19 pandemic

The COVID-19 pandemic is resulting in an economic slowdown and impacting the Group's business activities. The Group's management has monitored ongoing developments and amended its business plan to reflect the current circumstances. Moreover, the management has continuously assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and used estimates and judgement in respect of various matters as the situation has evolved.

#### 2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

### 2.2 Basis of consolidation

a) The consolidated financial statements include the financial statements of the Company and the following subsidiaries (collectively referred to as the "Group").

|                            |                                     | Country of    | Percentage      |             |

<sup>\*</sup> Dissolved and completed its liquidation

On 29 June 2020, three subsidiaries registered the changes of their company names with the Ministry of Commerce from "Mono Film Company Limited", "Mono Generation Company Limited" and "Mono Travel Company Limited" to "Mono Streaming Company Limited", "Mono Cyber Company Limited" and "Mono Shopping Company Limited", respectively.

On 16 December 2020, the Extraordinary General Meetings of shareholders of Mono Music Company Limited, Mono Radio Broadcast Company Limited, Mono Talent Studio Company Limited, T Moment Company Limited, Mono Play Company Limited, Mono Astro Company Limited and Mono Sport Entertainment Company Limited passed resolutions to dissolve the subsidiaries. The subsidiaries registered their dissolution with the Ministry of Commerce on the same date. Subsequently, Mono Radio Broadcast Company Limited, Mono Play Company Limited, Mono Astro Company Limited and Mono Sport Entertainment Company Limited registered the completion of their liquidation with the Ministry of Commerce on 28 December 2020. Moreover, on 30 November 2020, Mono Technology Hong Kong Limited registered its dissolution in accordance with a resolution passed by its Board of Directors meeting on the same date. In addition, on 13 August 2020, a meeting of the Company's Board of Directors passed a resolution to dissolve Mono Radio Company Limited. The dissolution of these subsidiaries does not have any significant impact on the Group's operations.

<sup>\*\*</sup> Dissolved and currently in process of liquidation

<sup>\*\*\*</sup> Approved to dissolve

- b) The Group is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) The assets and liabilities in the financial statements of overseas subsidiary companies are translated to Baht using the exchange rate prevailing on the end of reporting period, and revenues and expenses translated using monthly average exchange rates. The resulting differences are shown under the caption of "Exchange differences on translation of financial statements in foreign currency" in the statements of changes in shareholders' equity.
- f) Material balances and transactions between the Group companies have been eliminated from the consolidated financial statements.
- 2.3 The separate financial statements present investments in subsidiaries and an associate under the cost method.

#### 3. New financial reporting standards

#### 3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the entity's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

These standards do not have any significant impact on the Group's financial statements.

#### **TFRS 16 Leases**

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The cumulative effect of the change is described in Note 4 to the consolidated financial statements.

# Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures on Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impacts of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Group has elected to apply the following temporary relief measures on accounting alternatives:

- Not to use information relating to the COVID-19 situation in determining whether sufficient taxable profits will be available in future periods against which deferred tax assets can be utilised.
- Not to consider the COVID-19 situation as an indication that an asset may be impaired in accordance with TAS 36, Impairment of Assets.
- Not to use information relating to the COVID-19 situation to determine whether the Group has a present obligation arising from past events in estimating provisions.

The Group is evaluating the impact on the financial statements. The Group will consider recording the impact after the relief measures expire.

# 3.2 Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2021

The Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

# 4. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 3 to the consolidated financial statements, during the current year, the Group has adopted TFRSs related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards was recognised as an adjustment to retained earnings as at 1 January 2020, and the comparative information was not restated.

The changes in accounting policies do not have any impact on the balance of retained earnings as at 1 January 2020, but affect assets and liabilities in the statements of financial position as follows:

| of current portion            | 16                                | 5           | 21        | 1                             | 1           | 2         |  |

On initial adoption of TFRS 16, the Group recognised lease liabilities in relation to leases that previously classified as operating leases measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate as of 1 January 2020. For leases that previously classified as finance leases, the Group recognised the carrying amount of the lease assets and lease liabilities before transition as right-of-use assets and lease liabilities, respectively at the date of initial adoption.

### 5. Significant accounting policies

#### 5.1 Revenue and expense recognition

Revenues from advertising and services are recognised over the period of service, taking into account the stage of completion, which is determined based on comparison of the amount of service rendered as of the period-end with the total service to be rendered under the agreement.

Where royalties from rights are charged at fixed amounts, the royalties cannot be refunded by the licensee and the licensor has no obligations subsequent to granting the rights, the royalties are recognised as income in full when the licensee is entitled to exploit the rights under the terms of the agreement.

Revenues from sales of goods are recognised at the point in time when control of the asset is transferred to the customer, generally upon delivery of the goods. Revenue is measured at the amount of the consideration receivable, excluding value-added tax, of goods supplied after deducting returns and discounts to customers.

The recognised revenue which is not yet due per the contracts has been presented under the caption of "Contract assets - accrued revenues" in the statement of financial position. The amounts recognised as contract assets are reclassified to trade receivables when the Group's right to consideration is unconditional.

The obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer is presented under the caption of "Contract liabilities - unearned revenues" in the statement of financial position. Contract liabilities are recognised as revenue when the Group performs under the contract.

#### Finance income

Finance income represents interest income on debt instruments measured at amortised cost, which is recognised on an accrual basis based on the effective interest rate.

#### Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest rate method and recognised on an accrual basis.

#### Dividends

Dividends are recognised when the right to receive the dividends is established.

#### 5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

#### 5.3 Inventories

Souvenirs are valued at the lower of cost (under the first-in, first-out method) and net realisable value.

Pocket books are valued at the lower of cost (under the specific identification method) and net realisable value. Goods expected to be returned are valued at the former cost (under the average method), less any expected costs to recover the goods, including any potential decreases in the value of the returned goods.

#### 5.4 Investments

- a) Investments in an associate are accounted for in the consolidated financial statements using the equity method.
- b) Investments in subsidiaries and an associate are accounted for in the separate financial statements using the cost method, net of allowance for impairment loss (if any).

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

#### 5.5 Property, plant and equipment/Depreciation

Land is stated at cost. Building and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of building and equipment is calculated by reference to their costs, on the straight-line basis over the following estimated useful lives:

|  | <u>Useful lives</u> |
|--|---------------------|
| Building                                 | 40 years            |
| Land improvement                         | 20 years            |
| Building and leasehold improvement       | 10 years            |
| Furniture, fixtures and office equipment | 5 years             |
| Computer and equipment                   | 5 years             |
| Motor vehicles                           | 5 years             |

Depreciation is charged to profit or loss. No depreciation is provided on land and assets under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

#### 5.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### 5.7 Intangible assets and cost of spectrum license/Amortisation

Intangible assets and cost of spectrum license are recognised at cost, with the cost of the spectrum license measured at the cash equivalent price, which is the present value of the installments payable. The difference between the total payment to be made and the cash equivalent price is recognised as a finance cost over the license fee payment period, and amortised from the time the Group is ready to provide commercial service.

Following the initial recognition, the intangible assets and cost of spectrum license are carried at cost less accumulated amortisation and allowance for loss on impairment (if any) of assets.

Intangible assets and cost of spectrum license with finite lives are amortised on a systematic basis over the economic useful lives and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

|                                  | <u>Useful lives</u>                |
|----------------------------------|------------------------------------|
| Cost of spectrum license         | Contract period                    |
| Cost of website                  | 5, 10 years                        |
| Films, music and video copyright | 5, 10 years or contract period     |
| Other copyright                  | 3, 5, 10 years or contract period  |
| Computer software                | 5, 10, 20 years or contract period |

#### 5.8 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Group, whether directly or indirectly, or which are under common control with the Group.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Group that gives them significant influence over the Group, key management personnel, directors and officers with authority in the planning and direction of the Group's operations.

#### 5.9 Leases

#### Accounting policies adopted since 1 January 2020

The Group recognises right-of-use assets and lease liabilities for all leases at the date the underlying asset is available for use (the commencement date of the lease), except for a lease that has a lease term less than or equal to 12 months or a lease of low-value assets, the Group recognises as expenses on a straight-line basis over the lease term.

#### Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made on or before the commencement date of the lease.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the lease term or their estimated useful lives if ownership of the leased asset is transferred to the Group at the end of the lease term.

| Office building space                    | Lease term |
|--|------------|
| Furniture, fixtures and office equipment | 5 years    |
| Computer and equipment                   | 5 years    |
| Motor vehicles                           | 5 years    |

Right-of-use assets are presented as part of property, plant and equipment in the statement of financial position.

#### Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change of the lease.

#### Accounting policies adopted before 1 January 2020

Leases of equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases are depreciated over the useful life of the asset.

Leases of office building space and equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

### 5.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are charged to profit or loss.

#### 5.11 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit and loss.

#### 5.12 Employee benefits

#### Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

#### Post-employment benefits

#### Defined contribution plans

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

#### Defined benefit plans

The Group has obligations in respect of the severance payments they must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Group recognises restructuring-related costs.

#### 5.13 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

#### 5.14 Income tax

Income tax represents the sum of income tax currently payable and deferred tax.

#### **Current tax**

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

#### **Deferred tax**

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

#### 5.15 Financial instruments

#### Accounting policies adopted since 1 January 2020

Financial assets are initially measured at fair value plus transaction costs, except for trade receivables that are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition, and classified as to be subsequently measured at amortised cost, using the effective interest rate ("EIR") method and subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or when the rights to receive cash flows, substantially all the risks and rewards, or control of the asset has been transferred.

At initial recognition, the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. The Group takes into account any fees or costs that are an integral part of the EIR. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. The EIR amortisation is included in finance cost. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Financial assets and liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### Impairment of financial assets

The Group's consideration of credit risk and default of contract is based on past due contractual payments and other internal or external information. An allowance for expected credit losses ("ECLs") on financial assets is recognised based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate of the financial assets. However, the Group applies a simplified approach in calculating ECLs for trade receivables and contract assets, based on its historical credit loss experience with adjustments to reflect forward-looking factors specific to the debtors and the economic environment.

### Accounting policies adopted before 1 January 2020

#### Trade and other receivables

Trade and other receivables are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

#### 5.16 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 Use of quoted market prices in an active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

#### 6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

#### Revenue from contracts with customers

#### Identification of performance obligations

In identifying performance obligations, the management is required to use judgement regarding whether each promise to deliver goods or services is considered distinct, taking into consideration terms and conditions of the arrangement. In other words, if a good or service is separately identifiable from other promises in the contract and if the customer can benefit from it, it is accounted for separately. The entity will allocate a portion of the transaction price to goods and services based on relative stand-alone selling prices.

#### Determination of timing of revenue recognition

In determining the timing of revenue recognition, the management is required to use judgement regarding whether performance obligations are satisfied over time or at a point in time. Determination of whether performance obligations are satisfied over time is made based on the customer's receipt and consumption of the benefits, the characteristics of the assets derived from the performance and the Group's entitlement to payment for the work completed to date. In addition, in determining the revenues to be recognised over a particular period, the management is required to use judgement to measure the stage of completion to reflect the Group's performance in relation to the performance obligations to be completed. Where revenue is recognised at a point in time, the management is required to determine when the performance obligation under the contract is satisfied.

#### Allowance for expected credit losses of trade receivables and contract assets

In determining an allowance for expected credit losses of trade receivables and contract assets, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

#### Depreciation and amortisation

In determining depreciation and amortisation of property, plant and equipment and intangible assets, the management is required to make estimates of the useful lives and residual values of the assets and to review estimate useful lives and residual values when there are any changes.

#### Allowance for impairment of non-financial assets

In determining allowance for impairment of a non-financial asset, the management is required to exercise judgements regarding determination of the recoverable amount of the asset. These estimates are most relevant to property, plant and equipment, cost of spectrum license and other intangibles recognised by the Group.

In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available from binding sales transactions for similar assets, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal, or the calculations are based on observable market prices less incremental costs of disposing of the asset.

The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next 5 years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the assets of the cash-generating unit being tested. The estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the different cash-generating units are disclosed and further explained in Note 10.7 to the consolidated financial statements.

#### **Deferred tax assets**

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

## 7. Related party transactions

During the years, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group companies and those related parties.

(Unit: Million Baht)

| financial statements financial statements Tran          | nsfer pricing policy    |

During the year, the Company received a dividend of Baht 7 million from Mono Talent Studio Company Limited.

10.1 In August 2020, the Company paid in registered share capital of Mono Production Company Limited ("Mono Production") in accordance with the resolution passed by Mono Production's Board of Directors meeting on 11 August 2020 to call up a further Baht 70 million share capital (with registered share capital being fully called up), and made a payment of Baht 310 million for additional shares of Mono Production, in accordance with a resolution passed by the Extraordinary General Meeting of Mono Production's shareholders on 26 August 2020, to increase the registered share capital from Baht 2,020 million (20.2 million ordinary shares with a par value of Baht 100 each) to Baht 2,330 million (23.3 million ordinary shares with a par value of Baht 100 each). Mono Production registered the increase in share capital with the Ministry of Commerce on 27 August 2020. This increase in share capital does not have any impact on the Company's interest in Mono Production.

- 10.2 On 26 August 2020, Mono Production made a payment of Baht 300 million for additional shares of Mono Broadcast Company Limited ("Mono Broadcast"), in accordance with a resolution passed by the Extraordinary General Meeting of Mono Broadcast's shareholders on 26 August 2020, to increase the registered share capital from Baht 1,400 million (140 million ordinary shares with a par value of Baht 10 each) to Baht 1,700 million (170 million ordinary shares with a par value of Baht 10 each). Mono Broadcast registered the increase in share capital with the Ministry of Commerce on 27 August 2020. This increase in share capital does not have any impact on the Group's interest in Mono Broadcast.
- 10.3 During the year, T Moment Company Limited cancelled 1.5 million ordinary shares in accordance with a resolution passed by an Extraordinary General Meeting of its shareholders on 18 September 2020 to decrease its registered share capital by Baht 150 million, from Baht 200 million (2 million ordinary shares with a par value of Baht 100 each) to Baht 50 million (0.5 million ordinary shares with a par value of Baht 100 each). As a result, called-up capital decreased by Baht 86.25 million, from Baht 115 million (2 million ordinary shares with a par value of Baht 100 each, 57.5 percent paid-up) to Baht 28.75 million (0.5 million ordinary shares with a par value of Baht 100 each, 57.5 percent paid-up). The reduction of capital was made to eliminate deficit of Baht 37 million and return capital of Baht 49 million to the Company. The subsidiary registered the corresponding decrease in share capital with the Ministry of Commerce on 29 October 2020.

In addition, as discussed in Note 2.2 a) to the consolidated financial statements, during the year, the Company received cash returns of capital totaling Baht 6 million from Mono Radio Broadcast Company Limited, Mono Play Company Limited and Mono Astro Company Limited.

- 10.4 On 27 November 2020, the Company made a payment of Baht 245 million for additional shares of Mono Cyber Company Limited ("Mono Cyber"), in accordance with a resolution passed by the Extraordinary General Meeting of Mono Cyber's shareholders on 26 November 2020, to increase the registered share capital from Baht 982 million (9,820,000 ordinary shares with a par value of Baht 100 each) to Baht 1,227 (12,270,000 ordinary shares with a par value of Baht 100 each). Mono Cyber registered the increase in share capital with the Ministry of Commerce on 27 November 2020. This increase in share capital does not have any impact on the Company's interest in Mono Cyber.
- 10.5 On 27 November 2020, Mono Cyber made a payment of Baht 245 million for additional shares of Mono Streaming Company Limited ("Mono Streaming"), in accordance with a resolution passed by the Extraordinary General Meeting of Mono Streaming's shareholders on 26 November 2020, to increase the registered share capital from Baht 871 million (8,710,000 ordinary shares with a par value of Baht 100 each) to Baht 1,116 (11,160,000 ordinary shares with a par value of Baht 100 each). Mono Streaming registered the increase in share capital with the Ministry of Commerce on 27 November 2020. This increase in share capital does not have any impact on the Group's interest in Mono Streaming.

- 10.6 As discussed in Notes 2.2 a) and 7 to the consolidated financial statements, on 31 December 2020, the Company entered into a set-off agreement with Mono Technology Hong Kong Limited to offset a loan with return of capital on reduction of called-up capital, amounting to Baht 75 million.
- 10.7 As at 31 December 2020, the net asset value of the subsidiaries was Baht 334 million (2019: Baht 302 million) lower than the carrying amount of the investments in the separate financial statements. During the year, the Company amended its business plan to cope with the current circumstances, including the discontinuation of the operations of certain subsidiaries. As a result, the Company assessed the recoverable amounts of its investments in subsidiaries based on the higher of the calculated fair value less costs to sell and the value-in-use, calculated using cash flow projections that were prepared with reference to the financial estimates approved by management. Significant assumptions included those regarding revenue growth rates and discount rates. It was concluded that the recoverable amounts of the investments in subsidiaries were lower than the carrying amounts, by amounts totaling Baht 175 million (2019: Baht 73 million). The Company therefore recognised allowance for impairment losses on these investments in subsidiaries in profit or loss in the separate financial statements of the current year. The Company's management believes that the allowance for impairment of investments in subsidiaries is sufficient under the current circumstances.

Key assumptions used in value in use calculations relate to the discount rates and revenue growth rates, which the Company's management applied at 7.30-8.41 percent and 2-97 percent (2019: 8.53-10.17 percent and 0-55 percent), respectively. The Company's management believes that any reasonably possible change in the key assumptions on which the recoverable amounts are based would not cause the carrying amounts to exceed their recoverable amounts.

# 13. Cost of spectrum license

Mono Broadcast Company Limited ("Mono Broadcast") won a digital TV spectrum license auction for variety Standard Definition (SD) ("the license") held by the National Broadcasting and Telecommunications Commission ("NBTC"). The license is valid for 15 years from the date of the license (25 April 2014). Mono Broadcast was required to make payment for the bid price of Baht 2,250 million (exclusive of VAT) under the following payment conditions:

- 1) Payment of the minimum bid price, amounting to Baht 380 million, was to be paid in 4 installments, in accordance with the conditions stipulated by NBTC, within 3 years of the date the license was granted. (As at 31 December 2020, Mono Broadcast had cost of spectrum license of the minimum bid price payable amounting to Baht 19 million (2019: Baht 19 million).)
- 2) The portion of the license fees in excess of the minimum bid price, amounting to Baht 1,870 million, was to be paid in 6 installments, in accordance with the conditions stipulated by NBTC, within 5 years from the date the license was granted. (As at 31 December 2020, Mono Broadcast had the portion of cost of spectrum license in excess of the minimum bid price payable amounting to Baht 187 million (2019: Baht 187 million).)

Mono Broadcast is required to pay license fee, other fees and fee for the Broadcasting and Telecommunications Research and Development Fund for the Public Interest as specified by NBTC.

In compliance with preconditions to receive the license, on 17 January 2014, Mono Broadcast entered into a lease agreement to lease for digital terrestrial television service with the Royal Thai Army Radio and Television Station ("RTART") to broadcast digital television signal via RTART multiplexes. The service will be valid from 17 January 2014 to 31 May 2028 and Mono Broadcast must pay a monthly service fee as stipulated in the agreement.

On 11 April 2019, the order of the Head of National Council for Peace and Order regarding measures on solving issues in operating the television and telecommunication business was announced that licensees of digital TV spectrum are to be granted a waiver of the final installment payment of the minimum bid price of the spectrum license fee and the final two installments of the license fee in excess of the minimum bid price. As a result, Mono Broadcast reduced Baht 654 million for the carrying value of the cost of spectrum license and the value of the cost of spectrum license payable, to reflect the present value of the entity's future cash outflows under the new regulations.

In addition, pursuant to the above order of the Head of National Council for Peace and Order, the licensees are required to fully settle the remaining amounts within 120 days from the date on which the order is effective. Subsequently, on 17 June 2019, Mono Broadcast received a letter from the Office of NBTC informing Mono Broadcast to make payment of the remaining amounts within 8 August 2019. If it did not make full settlement within the due date, interest would need to be paid at a rate of 7.5 percent per annum. However, payment must not be later than 23 May 2021. Mono Broadcast has not yet made payment of the remaining amounts.

Movements in the cost of spectrum license and cost of spectrum license and interest payable accounts during the years are summarised below.

(Unit: Million Baht)

|   | Consolidated fina | ancial statements |
|---|-------------------|-------------------|

Movements in the long-term loan from bank account during the year are summarised below.

(Unit: Million Baht)

Consolidated

|                                     | Consolidated         |
|-------------------------------------|----------------------|
|                                     | financial statements |
| Balance as at 1 January 2020        | 1,534                |
| Add: Additional borrowings          | 250                  |
| Less: Payment of front-end fees     | (7)                  |
| Less: Repayment                     | (76)                 |
| Add: Amortisation of front-end fees | 1                    |
| Balance as at 31 December 2020      | 1,702                |

The subsidiaries' loans are secured by the mortgage of a subsidiary's land with structures thereon, the pledge of the subsidiary's savings account, the assignment of rights to receive all space service income via that savings account, and the provision of guarantees by the Company.

The loan agreements stipulate certain performance requirements and covenants, related to matters such as the maintenance of certain debt-to-equity ratios and debt service coverage ratios prescribed in the agreements, maintenance of the shareholdings of current shareholders, and the Baht 300 million increase in the share capital of Mono Broadcast, which the Group has already completed as discussed in Note 10.2 to the consolidated financial statements. Moreover, on 13 August 2020, a subsidiary received a letter from lender, waiving the requirement to maintain the stipulated debt-to-equity ratio.

## 18. Cost of spectrum license and interest payable

|   | (Unit: M             | lillion Baht) |
|---|----------------------|---------------|
|   | Consoli              | dated         |

| Demographic assumptions changes                          | -                    | 1           | -            | 1           |  |
| Financial assumptions changes                            | 15                   | 5           | 5            | 2           |  |
| Experience adjustments                                   | (15)                 | 6           | (8)          | 3           |  |
| Benefits paid during the year                            | (42)                 | (20)        | (11)         | (10)        |  |
| Transfers employees between Group companies              | (5)                  |             | (11)         | 5           |  |
| Provision for long-term employee benefits at end of year | 78                   | 86          | 28           | 42          |  |

In 2019, the Group recorded additional long-term employee benefit liabilities of Baht 18 million (The Company only: Baht 8 million) as a result of the additional legal severance pay rates announced under the Labor Protection Act (No. 7) B.E. 2562, by recognising as expenses for the year 2019.

The Group expects not to pay long-term employee benefits during the next year (2019: Baht 2 million).

As at 31 December 2020, the weighted average duration of the liabilities for long-term employee benefit was 16 years (2019: 17 years).

Significant actuarial assumptions are summarised below:

(Unit: Percent per annum)

|                      | Consolidated/Separate | Consolidated/Separate financial statements |  |  |
|----------------------|-----------------------|--|--|--|
|                      | <u>2020</u>           | <u>2019</u>                                |  |  |
| Discount rate        | 1.90                  | 3.25                                       |  |  |
| Salary increase rate | 5.25                  | 5.25                                       |  |  |

The result of sensitivity analysis on significant assumptions that increase (decrease) the present value of the long-term employee benefit obligation is summarised below:

|                           |              |             | (Unit: Mi    | llion Baht) |

On 10 August 2020, the 2020 Annual General Meeting of the Company's shareholders passed a resolution to approve a decrease of Baht 139 million in the Company's registered share capital, from Baht 486,299,998 (4,862,999,975 ordinary shares with a par value of Baht 0.1 each) to Baht 347,105,404 (3,471,054,038 ordinary shares with a par value of Baht 0.1 each) by cancelling 1,391,945,937 unissued ordinary shares with a par value of Baht 0.1 each to accommodate the exercise of warrants (MONO-W1) which expired on 17 October 2019. The Company registered the decrease in share capital with the Ministry of Commerce on 20 August 2020.

## 22. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net profit after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of the registered capital. The statutory reserve is not available for dividend distribution. At present, the statutory reserve has fully been set aside.

| Deferred tax relating to origination and reversal |                               |            |                      |             |  |
| of temporary differences                          |                               |            | 1                    | 1           |  |
| Deferred tax assets - net                         | 14                            | 13         |                      |             |  |
|   |                               |            |                      |             |  |

As at 31 December 2020, the Group had deductible temporary differences and unused tax losses totaling Baht 866 million (2019: Baht 996 million) (the Company only: Baht 93 million (2019: Baht 124 million)), on which deferred tax assets have not been recognised as the Group believes that future taxable profits may not be sufficient to allow utilisation of the temporary differences and unused tax losses.

The unused tax losses amounting to Baht 805 million will expire by 2025.

#### 27. Loss per share

Basic loss per share is calculated by dividing loss for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place at the beginning of the year.

The following table sets forth the computation of basic loss per share:

|  | Consolidated financial statements  2020 2019 |        | Separate financial statements |             |
|--|--|--------|-------------------------------|-------------|
|  |  |        |                               |             |
|  |  |        | <u>2020</u>                   | <u>2019</u> |
| Loss attributable to equity holders of the Company |  |        |                               |             |
| (million Baht)                                     | (661)  | (616)  | (168)                         | (114)       |
| Weighted average number of ordinary shares         |  |        |                               |             |
| (million shares)                                   | 3,471  | 3,471  | 3,471                         | 3,471       |
| Basic loss per share (Baht)                        | (0.19)                                       | (0.18) | (0.05)                        | (0.03)      |

Since the conversion to ordinary shares of the warrants would decrease loss per share (anti-diluted). Therefore, the Company does not present diluted earnings per share.

#### 28. Provident fund

The Group and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. The Group and its employees contribute to the fund monthly at rates of between 3 and 7 percent of basic salary. The fund, which is managed by TISCO Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2020 amounting to Baht 12 million (2019: Baht 19 million) (the Company only: Baht 4 million (2019: Baht 6 million)) were recognised as expenses.

## 29. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

The Group's operations are carried on mainly in Thailand. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain exclusively to the aforementioned reportable geographical area.

The following table presents revenue and profit (loss) information regarding the Group's operating segments for the years.

|                                   |             |             |             |             |              |             | (Unit: Milli | on Baht)      |  |

The Group has revenues from 1 major customers, arising from the media business (2019: 2 major customers, arising from the media business and the content and entertainment business).

## 30. Commitments and contingent liabilities

### 30.1 Capital commitments

As at 31 December 2020, the subsidiaries had capital commitments of Baht 708 million (2019: Baht 660 million), relating to the purchases of movie rights.

### 30.2 Guarantees

- a) The Company has guaranteed bank credit facilities of its subsidiaries (exclusive of guarantees provided for bank guarantees as described in Note 30.2 c) to the consolidated financial statements) totaling Baht 2,153 million (2019: Baht 1,775 million).
- b) The subsidiaries have guaranteed bank credit facilities of the Company amounting to Baht 35 million (2019: Baht 35 million).
- c) As at 31 December 2020, the Group had outstanding bank guarantees of Baht 235 million and USD 13 million (2019: Baht 237 million and USD 6 million) (the Company only: Baht 3 million (2019: Baht 3 million)) issued by banks on behalf of the Group to guarantee contractual performance. The bank guarantees are secured by guarantees provided by the Group and pledges of its saving deposits.

#### 30.3 Service commitments

As at 31 December 2020, the subsidiaries had outstanding payment commitments in respect of service agreements amounting to Baht 190 million. The terms of the agreements were generally between 1 and 8 years.

#### 31. Financial instruments

#### 31.1 Financial risk management objectives and policies

The Group's financial instruments principally comprise cash and bank deposits, trade and other receivables, accrued revenues, loans, trade and other payables, and borrowings. The financial risks associated with these financial instruments and how they are managed is described below.

#### Credit risk

The Group is exposed to credit risk primarily with respect to trade receivables and other financial instruments. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. In addition, outstanding trade receivables and other financial instruments are regularly monitored. However, the Group is exposed to concentrations of credit risk with respect to receivables because the Group has a few major customers who are in the same industry.

At each reporting date, the Group determines expected credit losses on the basis of an aging profile of outstanding debts for customer groups with similar credit risks, or on the basis of the cash flows that the Group expects to receive, discounted at the effective interest rate.

#### Interest rate risk

The Group's exposure to interest rate risk relates primarily to its loans and borrowings. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

An increase or decrease of 0.25 percent in the interest rates of the Group's floating rate borrowings, assuming that the principals as at 31 December 2020 and all other variables remain constant over one year, would result in a respective decrease or increase of Baht 4 million in the Group's profit before tax. This information is not a forecast or prediction of future market conditions.

#### Foreign currency risk

The Group's exposure to the foreign currency risk relates primarily to its trading or service transactions and loans or borrowings that are denominated in foreign currencies. The Group seeks to reduce this risk by entering into foreign exchange forward contracts when it considers appropriate. Generally, the forward contracts mature within one year.

The balances of financial assets and liabilities denominated in foreign currencies are summarised below.

| Consolidated financial statements |             |             |                       |                                     |                                |                  |  |

An increase or decrease of 5 percent in US dollar exchange rate, with all other variables held constant, would result in a respective decrease of increase of Baht 1 million in the Group's profit before tax (the Company only: Baht 1 million), as a result of changes in the values of monetary assets and liabilities. The Group's exposure to foreign currency changes for all other currencies is not material and this information is not a forecast or prediction of future market conditions.

## Liquidity risk

The Group manages its liquidity risk through the use of overdrafts, loans and lease contracts. The Group can access a sufficient variety of funding sources and is able to roll over debt maturing within 12 months.

The table below summarises the maturity profile of the Group's financial liabilities as at 31 December 2020 based on contractual undiscounted cash flows.

(Unit: Million Baht)

|   | Consolidated financial statements |              |       |  |  |  |
|---|-----------------------------------|--------------|-------|--|--|--|
|   | Less than                         |              |       |  |  |  |
|   | 1 year                            | 1 to 5 years | Total |  |  |  |
| Trade and other payables                      | 497                               | -            | 497   |  |  |  |
| Short-term loans                              | 136                               | -            | 136   |  |  |  |
| Long-term loans                               | 307                               | 1,570        | 1,877 |  |  |  |
| Cost of spectrum license and interest payable | 234                               | -            | 234   |  |  |  |
| Lease liabilities                             | 18                                | 10           | 28    |  |  |  |
| Total   | 1,192                             | 1,580        | 2,772 |  |  |  |

As at 31 December 2020, the Group's financial liabilities of Baht 235 million are payable on demand and the Company's financial liabilities of Baht 181 million are payable less than one year.

#### 31.2 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

#### 32. Capital management

The primary objective of the Group's capital management is to ensure that they have appropriate capital structure in order to support their business and maximise shareholder value. As at 31 December 2020, the Group's debt-to-equity ratio was 2.27:1 (2019: 1.26:1) and the Company's was 0.05:1 (2019: 0.07:1).

## 33. Events after the reporting period

On 24 February 2021, the Company's Board of Directors meeting passed a resolution to increase its registered share capital by Baht 34.7 million, from Baht 347,105,404 (3,471,054,038 ordinary shares of Baht 0.1 each) to Baht 381,805,404 (3,818,054,038 ordinary shares of Baht 0.1 each), through the issue and allocation of not more than 347 million additional ordinary shares with a par value of Baht 0.1 each under a general mandate to private placement offerings. The investors are not to be related parties.

#### 34. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 24 February 2021.
